

Per-facility subscription · tiered by archetype

Priced so every yard clears the bar.

A per-facility subscription tiered to the yard's
archetype, plus a one-time per-site implementation.
The whole point: YMS + flowDRIVER at all of your
yards, not just the largest.

Why tiered pricing

Legacy YMS pricing only ever justified your biggest yards.

When every site costs the same, only the highest-volume yards make the business case. The other yards stay on clipboards, and the network never standardizes. YardFlow prices to the archetype, so the case closes at all 50.

50/50 \$550K

YARDS COVERED

NETWORK SUBSCRIPTION / YR

Representative 50-site network · 25 YMS yards + 10 drop yards without a YMS + 15 no-drop yards

Tier 1 of 3

Yards running a YMS today.

YMS yards

\$15K / YARD / YR

- ✓ Replaces the two-category YMS with the full protocol: labor, detention, throughput, standardization.
- ✓ flowDRIVER check-in, flowBOL custody trail, flowSPOTTER move queue, flowNETWORK command view.

Value **\$2.55M** / yard / yr

Hard savings **\$188K** / yr

12.5× subscription, hard savings alone

Tier 2 of 3

Drop yards without a YMS.

Drop yards · no YMS

\$10K / YARD / YR

- ✓ The first operating system these yards have ever had. All four ROI categories switch on at once.
- ✓ Drop moves get timestamped custody. Detention disputes end. Trailer pools become visible.

Value **\$1.57M** / yard / yr Hard savings **\$100K** / yr **10×** subscription, hard savings alone

Tier 3 of 3

No-drop yards. The conversion tier.

No-drop yards

\$5K / YARD / YR

- ✓ Non-drop yards become drop yards. Self-service swaps cut turn time from 48:00 to 24:00 in the Primo pilot.
- ✓ 9-to-5 yards run 24/7. The kiosk checks drivers in, prints two BOL copies and a yard pass, no gate staff on shift.

Value **\$527K** / yard / yr Hard savings **\$54K** / yr **10.8×** subscription, hard savings alone

Implementation · one-time

\$2,500 per site, once.
Deployed in 90 days.

Hardware, integration, driver onboarding, and baseline capture. Hard savings repay it inside the first month across the representative network.

NETWORK OF 50 YARDS	COST	RETURNS
Subscription, all tiers	\$550K / yr	\$87.4M / yr value
Implementation, one-time	\$125K	<1 mo payback

Next step

Price your network in one call.

A 30-minute yard audit maps your facilities to the three archetypes. You leave with a tier count, a subscription number, and the ROI those tiers unlock.
